

## Trivia Game Show Description:

- Modules are free-standing (on the floor) allowing contestants to simply stand behind the module, hit their button, and speak into their microphone when they know the answer to the question.
- Each module (2 module system) allows 2 contestants – providing a 4 contestant game show for your party.

- First contestant who rings in locks out the other contestants -only the one who rings in will have an active microphone. The contestants score and button blink so everyone knows which contestant is about to give an answer.
- Highly attractive multi-colored quiz buzzers and points display.
- Individual numbered score display for each contestant – allows everyone to know each contestants score with one look
- The game is made from industrial grade materials & is durable.
- Game show audio the contestant's voice and the sound effects connect to any audio system for a small or large audience.
- Game Show Host also connects to the sound system for the audience and contestant to hear. Game Show theme music can

also be played creating a professional (as seen on TV) production for all to enjoy.

- Game Show Host has wireless hand held remote to add or deduct points (depending if contestant has correct or incorrect answer) The remote also resets modules for next question.
- The Trivia Game Show is usually based on entertainment related questions: Television, Movies, “Name that Tune”, Arizona history and includes music or movie sound bites.
- Our company provides either one game show host or two depending on the size of the event. We also provide complete set up and delivery of the game show as part of our total agreement.
